Career Objective

Aspiring to advance as a developer passionate about creating innovative web and mobile applications. My ultimate goal is to contribute to the gaming and animation industry by building immersive and user-centric experiences.

Technical Skills

- **Programming Languages:** HTML, CSS, JavaScript (ES6+), TypeScript, PHP

- **Frameworks & Libraries:** React.js, Tailwind CSS, SCSS, Next.js, React Native

- **Cloud Services**: Firebase, Appwrite

- **Other Tools**: Github, Postman, Vercel, Three.js

Professional Experience

Frontend Developer | Alimcosoft PVT Limited
1 Sep 2024 – Present

As a Frontend Developer at Alimcosoft, I work on international projects using Next.js for web development and React Native for mobile apps. I focus on building user-centric features like dark mode and enhancing performance. I collaborate with teams to deliver applications, including a baseball app with player profiles, match scheduling, and ticket booking functionalities.

Junior Developer Intern | Softicera Software House
2 Mar 2022 – 10 Oct 2023

During my internship at Softicera, I assisted in building responsive components with React.js and optimized website performance by refining JavaScript and CSS. I contributed to real-world projects like the arts shop website and the Shoppyy dashboard, enhancing both functionality and user experience.

Education

Bachelor of Law | Western law Punjab collage

5 Sep 2024 - 10 Feb 2028
